(I) is useful for replacing or bypassing a portion of a vascular system of an individual, by implanting (I) into the vascular system of the individual, to form a fluid communication between the vascular system and the graft, where the synthetic tubular element of the graft is of an inner cross sectional area which is substantially equivalent to an inner cross sectional area which is substantially equivalent to an inner cross sectional area of a blood vessel. The present sequence represents the human up50 cDNA sequence (also known as a developmental arteries and neural crest epidermal growth factor (EGF)-like protein (DANCE) gene), which is used in an example from the organt invention
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    muscle cells expressing adherence factor -
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          Sequence 1347 BP;

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    Total number of hits satisfying chosen parameters:
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
